STATEMENT

The production of stainless steels, nickel alloys, titanium and titanium alloys at the Acciaierie Valbruna SpA is carried out so that the substances dangerous for the health be in agreement to the European Directive 2011/65 (RoHS) and 2015/863.

The maximum values of the dangerous elements accepted by the directive are:

Element	Content %	Element	Content %
Pb	0.1	DEHP	0.1
Hg	0.1	BBP	0.1
Cr6	0.1	DBP	0.1
PBB	0.1	DIBP	0.1
PBDE	0.1		
Cd	0.01		

The above is not applicable for the steels having Pb as alloy element up to 0.35% in weight.
